When can AARP Short-Term Care Insurance from Medico be used?

Example: broken hip

Louise broke her hip during a fall. After the surgery, she experienced difficulty dressing and bathing on her own. Her daughter was able to visit for a week to help, but it was clear that Louise would need continuing care beyond that time.

In this situation, AARP Short-Term Care Insurance from Medico could benefit Louise by helping to cover the cost of having home healthcare services assist her with showering and getting dressed until she regained full mobility. The Household Assistance benefit would also help cover the cost of light housework and laundry while she recovered enough to perform them on her own.
